Specifications

1. The page follows a 3-column layout format.
2. You can choose any font face you like but you cannot use the default.
3. Heading and Footer have a background image. You can choose your own background image.
4. The name of the coffee shop should have a text shadow effect.
5. The navigational links should have the same style and set up as what you see at the above page (background image, watermark effect, borders, location)
6. You can choose your own pictures for coffee, news, and discount.
7. The text data of the page should be the same as above. No more no less.
8. The page is framed under a background color. You can choose the color that you want.
